PROFESSIONAL SUMMARY

Product Communications and Technical Marketing professional with 5 years of experience helping cybersecurity and B2B SaaS organizations position products, develop market narratives, support go-to-market initiatives, and translate complex technologies into buyer-focused messaging.

Experienced in product positioning, messaging strategy, sales enablement, product launches, competitive analysis, buyer persona development, and thought leadership. Proven track record of partnering with Product, Sales, Marketing, and Leadership teams to create messaging frameworks, support market expansion, and improve customer understanding across global markets.

Domain expertise includes Exposure Management, Continuous Threat Exposure Management (CTEM), Attack Surface Management, Red Teaming, Penetration Testing, and cybersecurity risk assessment, with additional experience supporting SaaS organizations across cloud, AI, retail technology, healthcare, insurtech, and enterprise software markets.

Product Marketing • Technical Marketing • Product Communications • Product Positioning • Messaging Strategy • Go-to-Market Strategy • Sales Enablement • Competitive Analysis • Buyer Persona Development • Product Launch Communications • Thought Leadership • Cybersecurity Marketing • Website Messaging • ABM Campaigns • Executive Communications • Market Research • GTM Content Development

PROFESSIONAL EXPERIENCE

CYBERMINDR

Senior Brand & Content Strategist | Apr 2024 – Present

- Lead product communications, messaging strategy, sales enablement, and thought leadership initiatives for a cybersecurity SaaS platform specializing in external threat exposure management.
- Developed CyberMindr's first formal positioning and messaging framework, helping establish a consistent market narrative across Product, Marketing, Sales, and Leadership teams.
- Built the company's website narrative architecture from the ground up, creating homepage messaging, product pages, solution pages, industry pages, buyer-focused value propositions, and customer-facing communications.
- Conducted competitive analysis across cybersecurity vendors including Pentera, CyCognito, Tenable, and FireCompass to identify differentiation opportunities and strengthen positioning within CTEM and Exposure Management markets.
- Supported product launches through release communications, launch emails, website updates, product documentation, and GTM content initiatives.
- Developed buyer personas and audience-specific messaging frameworks for CISOs, MSSPs, Security Analysts, Risk Teams, and enterprise decision-makers.
- Created sales enablement assets including sales presentations, executive communications, industry-specific whitepapers, event collateral, and customer-facing messaging supporting enterprise cybersecurity conversations.
- Contributed to organic acquisition initiatives that generated 85,920 search impressions and approximately 26% of website traffic while supporting analyst engagement and market awareness initiatives.

WATI

Cybersecurity Content Strategist | Aug 2023 – Apr 2024

- Supported product communications and go-to-market initiatives for i-Radar, a cybersecurity exposure assessment platform that later evolved into CyberMindr.

- Developed website messaging, landing pages, product documentation, solution briefs, sales collateral, product brochures, and customer-facing communications aligned with product positioning objectives.
- Supported release communications, product updates, and technical documentation efforts, translating cybersecurity capabilities into clear business value for technical and executive audiences.
- Performed editorial QC on technical cybersecurity reports, ensuring accuracy, clarity, and compliance with client and brand standards.
- Collaborated with technical teams to translate complex security assessments into clear, client-ready documentation.
- Built expertise across vulnerability management, penetration testing, risk assessment, security controls, compliance, and external attack surface exposure.

BLUFIG

Content Strategist | Jan 2022 – Aug 2023

- Led messaging, content strategy, and demand generation initiatives for more than 18 B2B SaaS companies across cloud, enterprise software, and technology sectors.
- Developed positioning, website messaging, landing pages, and value proposition frameworks in collaboration with founders, CEOs, CMOs, Product Managers, and Marketing Leaders.
- Planned and executed persona-based campaigns and ABM initiatives across email and LinkedIn, supporting account targeting, audience segmentation, and customer acquisition efforts.
- Created sales and marketing assets including executive thought leadership content, customer-facing communications, campaign messaging, and demand generation collateral.
- Built and optimized more than 50 landing pages and 7 complete websites, aligning customer journeys with business goals and conversion objectives.

INDEPENDENT MARKETING & MESSAGING CONSULTANT (Freelance)

2023 – Present

- Supported SaaS, cybersecurity, robotics, and enterprise technology organizations with positioning, messaging, website strategy, thought leadership, and go-to-market communications initiatives.

- Developed website content, product messaging, executive communications, ABM assets, event collateral, whitepapers, and customer-facing marketing materials.
- Conducted messaging audits, website reviews, and content assessments to improve positioning, value propositions, customer communication, and user experience.
- Contributed to strategic projects including SaaS repositioning initiatives, website transformation efforts, and messaging development for emerging technology companies.

BEERBICEPS Media World Pvt. Ltd.

Script Writer | June 2021 – Aug 2021

- Contributed to the launch and early growth of BigBrainCo, supporting content strategy, creator outreach, audience research, and storytelling initiatives.
- Developed storytelling, audience research, and communication skills while contributing to content that generated more than 1.5 million views.

PRODUCT MARKETING PROJECTS

CyberMindr Positioning & Messaging Transformation

- Developed the company's first positioning and messaging framework.
- Built website narrative architecture and customer-facing messaging from the ground up.
- Conducted competitive positioning analysis and supported CTEM-focused market narrative development.
- Created buyer personas, sales enablement content, executive communications, and analyst-facing messaging.

CyberMindr Product Launch & GTM Communications

- Supported release communications, launch messaging, website updates, customer communications, and GTM initiatives for multiple product enhancements and feature launches.

Robotics Fleet Management Software Repositioning Strategy

- Contributed to brand repositioning of a robotics-focused organization toward a platform-led SaaS narrative through messaging development, website strategy, and content.

Product Positioning & Go-to-Market Strategy for Employee Engagement SaaS Platform

- Supported product naming, positioning, messaging, and website strategy for a workplace motivation and performance gamification platform.
- Helped define value proposition, target audience, market narrative, and brand identity prior to launch.
- Built end-to-end website messaging and customer-facing communications supporting market introduction.
- Partnered with leadership and stakeholders throughout the process to align product, brand, and market communication strategies.
